

"Classic" Exercise Saddle

Made In
Australia
Australia

Aeropanel

All our saddles are fitted with our new Aeropanel specially designed using a 3D mesh polyester that absorbs pressure much like a Gel Pad but using air not gel so it is much lighter.

Features

With over 2000 of these saddles sold since 1993, most of which are still in use today, this saddle has proven to be a stayer in the market.

All Leather Saddle made from quality NZ hand picked hides

Improved Steel 1/2 Tree English chrome girth points

Large leather flaps

Fitted with unique "Aeropanel" preventing pressure points

Fully made in our workshop in Victoria, Australia

Used by leading Trainers in Australia and overseas

(As nylon webbings are abrasive and prematurely wear out the flaps on your saddles we recommend the use of our stirrup leathers with the leather on top of webbing)

Weight 3.6 KG

Price \$600.00 unmounted incl GST
